Complete
Service

OUR FACILITIES ENABLE US TO SERVE YOU EFFICIENTLY

BIRD'S EYE VIEW OF OUR HATCHERY

The six greenhouses in this picture are one hundred feet long and cover a surface exceeding 15,000 square feet. We carry on hand many thousands of tropical fish and large collections of water plants, which enables us to make prompt shipments whenever weather conditions permit.

Our Aquarium Factory is located in the rear of these buildings. With large storage facilities we have a constant stock of all aquariums on hand, permitting us to give you prompt service. Our aim is always to furnish you with the better quality merchandise at lowest prices.

OUR SHIPPING DEPARTMENT, EXHIBITION BUILDINGS AND MAIN OFFICE
2141 CRESCENT AVENUE

Our Location Is 6200 West and 2100 North. Phone, EVERgreen 7265

Here we have created efficient shipping facilities for the proper handling and packing of orders. The packing of merchandise is very important.

Poor packing and excessive weight creates breakage and waste which has to be added on to the retail price.

We do not ship less than 10 fish of one variety having a value less than 25c each at wholesale. Higher priced fish may be ordered in any desired quantity.

DISCOUNTS: 50 or more fish of one variety 10%
100 or more fish of one variety 20%

TERMS AND GENERAL INFORMATION

Cash with order, unless satisfactory credit can be established.

Shipments of Live Stock: We guarantee safe arrival of live stock within the Fifth Zone of St. Louis. We reserve the right to refuse replacements should the loss be the fault of the carrier. In case of loss we do not entertain claims without bad order report or exception report, which can be obtained at the time of delivery and which must be mailed to us. We do not entertain claims for loss of live fish unless loss exceeds 5%. We positively can not guarantee the live delivery of tropical fish from November 1st until March 1st and make shipments during these months entirely at purchaser's risk.

Parcel Post Shipments: Are made at purchaser's risk.

Shipping Cans: During winter months tropical fish are shipped in thermos cans. Every order includes the agreement to return these containers promptly prepaid. No deposit is required on these cans. During the summer months fish are shipped in light tin cans. Please remit 30c each for these cans, figuring 25 medium size fish per can or 50 small fish.

Breakage: Our method of packing practically eliminates all breakage. However some breakage can not be avoided if boxes are handled rough. Secure bad order report when breakage occurs and mail this to us or file claim with carriers to cover damage.

Packing: All shipments are packed to insure the utmost safety. We use strong corrugated boxes whenever possible to reduce excessive weight. No special charges are made for packing boxes.

Prices: Price quotations in this catalog are wholesale quotations and strictly net. Terms 1% 10 days, net 30 days.

Claims: No claims allowed unless made within three days after receipt of shipment.

This 24-page booklet contains 20 illustrations and a beautiful two-color cover.

It describes all popular aquariums, plants and fish, diseases and treatments, etc.

Many questions are answered in this book. The average dealer would save money by giving these books away instead of trying to explain and answer all of the various questions which accompany, at times, small sales and consume valuable time.

Show the beginner this book. Save time and have a more satisfied customer.

AQUARIUM DEPARTMENTS AND YOUR STORE

The popularity of tropical fish despite the general business depression requires your careful consideration. Our sales during 1933 by far exceeded the sales during any one year, even the prosperity period. The fact that prices have tumbled down had nothing to do with this popularity, low prices are just a natural consequence of general conditions which have reflected themselves in the form of low prices and a great reduction in sales in every business and industry. (However, in the tropical fish industry, instead of reduced sales, sales have grown tremendously during the last few years.) The tropical fish industry indicates that it is not just a fad, but that it is a business that will always be called upon to supply an ever increasing demand.

Have You a Tropical Fish Department?

Your initial steps greatly determine the extent of your success with this department. Each year we are called upon to equip many new departments. You do not buy this equipment every day. The purchase of this equipment is a factor not only in your sales volume and operating expense, but also in your profit and loss. We need only refer you to our continually growing list of satisfied customers who have chosen our products in preference to others. **WE CAN EQUIP YOUR STORE WITH A TROPICAL FISH DEPARTMENT UP-TO-DATE, INCLUDING \$135.00 WORTH OF SALEABLE MERCHANDISE, FOR ONLY \$200.00.** We can show you that the sales during the first 60 days will show enough profit to offset your initial expense. Write us if you are interested, for further details.

Our Policy

Our aim has always been to supply the utmost in quality. Our reputation as pioneers in the tropical fish industry has never been questioned. At no time during our 15 years in business have our products been the lowest priced on the market. We have consistently adhered to the policy that we can serve you best by supplying quality at the lowest possible price.

Aquarium Accessories and Supplies

The smart dealer recognizes the fact that aquariums, accessories, fishfoods, remedies and the many other supplies which we list in this catalog are the backbone of the department. The supply sales, if properly managed, should constitute a large profit and at least 50% of the total sales. If your sales show a smaller volume, consult us. We are only too glad to acquaint you with sales possibilities and the desirability of using our products, which certainly will help increase this deficiency.

Why You Should Choose Beldt Products

We have always maintained high standards of quality combined with efficient service. When you buy the cheapest aquarium you are making the least profit and you have the most trouble, not mentioning a dissatisfied customer. This applies to practically everything you sell. The products that bear our name are never offered at cut rate prices. The quality that built up our business is the same quality that will help increase yours. The many practical fishfoods and other supplies will create for you a repeat business, which is the only business worth while having. When you send us an order you are not spending money, but making an investment with the sole purpose of increasing your income. And with this fact in mind we offer not the cheapest, but the most in value.

O. C. BELDT.
